

# Councilman's work praised

To the Editor:

A thank you to North Olmsted Councilperson Larry Orlowski.

An attempt is being made by developers and certain members of our government to change the character of historic Butternut Ridge Road in North Olmsted. They want to change zoning protections to allow development of multi-family homes on a small, bowling alley-shaped lot on our road. As a life-long resident of Butternut Ridge, I would like to thank Councilperson Larry Orlowski for his support in fighting North Olmsted's ongoing approvals that will result in rezoning and subsequent destruction of our neighborhood.

Those who devote their service to government are most often criticized. In fact, many working for our government are working against Butternut Ridge homeowners. I'd offer the opposite. Thank you Councilperson Larry Orlowski. You represent democracy in North Olmsted. That is what you ran for office for. That is what you have achieved. We are proud!
